10 JUN 1977

MEMORANDUM FOR: Director of Central Intelligence
VIA: Deputy Director for Administration
FROM: Robert W. Gambino
Director of Security
SUBJECT: Implementation of Security Task
Force Recommendations (U)

1. (S-TK) Action Requested: Attached for your signature are memoranda to the Acting Deputy to the DCI for the Intelligence Community (Attachment A) and to the Director, National Reconnaissance Office (Attachment B). These memoranda direct actions pursuant to your review of the Security Task Force Report on the Moore and Royce/Lee cases.

2. (C) Background: The attached memoranda address the principal objectives you have endorsed regarding compartmentation. Please note that the mandate for stabilization and reduction of Sensitive Compartmented Information (SCI) access approvals will permit increases in one sector of a compartmented system where they can be justified by programmatic or intelligence production considerations so long as they are counterbalanced by reductions in another sector.

(S) Action on the discontinuance of [REDACTED] approvals has been directed through COMIREX because this appears to be the most effective way to achieve orderly results and because this approach will inform those responsible for implementing reforms in the TALENT-KEYHOLE Control System.

(C) The recommendation that a separate access be established for persons having custody of SCI but no requirement for substantive knowledge will require considerable staffing because such an approval would transcend compartmented system boundaries. The objective will be pursued by the Special Security Center.

3. (U) Recommendation: It is recommended that you sign the attached memoranda.
